

Topic 4 : What are the views on people?

How can we take a different look at people, which takes into consideration their difficulties but also highlights their potential and their skills? Beyond the affirmation, how do we put our ambition into action to build a European dimension carrying social progress, where everyone is involved?

Round table on Friday, December 14 from 10am to 12pm

The context of the round table

Political choices consequences such as unemployment, sickness, confinement, etc. weaken people who become reduced to this particular situation. In addition, the issues of worker protection (rights knowledge) and social safety nets are being undermined. This situation undoubtedly involves rethinking the socio-economic model that takes into account each of us potential and not just the needs identified by the society.

Presentation of the Speakers

- Marie Françoise Thull, President of the Secours Populaire de Moselle

A few words of presentation of the Secours Populaire Français

Created in 1945, the Secours populaire français is a popular movements. The aim of the association is to fight against poverty and exclusion in France and throughout the World. It brings together people of all views, circumstances and origins who wish to live in solidarity.

- Sina Schroeppel, Café Nova, Hamburg, Germany

A few words about Café nova

Café nova is part of the New Hamburg project. A place of collective and solidarity welcome. Café Nova considers itself a non-profit café and wants to be accessible and affordable for all. He is involved in the project by addressing the issue of community living in an extremely diverse urban society. The basic principle is the meeting, in particular through the "sparchcafé" project, which offers times for sharing and learning languages.

- Daniel Simonnet, Médiapsy video (France)

A few words about Médiapsy video

The association "Médiapsy vidéo", created in 2015 as a continuation of the experience of the Rencontres vidéo en santé mentale, aims to develop audiovisual actions in the field of mental health. For the past 20 years, it has been running, with other partners including the Ceméa, the Rencontres Vidéo en Santé Mentale, which aims to present films made by or with people followed in mental health. The emphasis is on the expression of both patients and their teams, in an atmosphere conducive to meetings and exchanges.
